Home Priced at

\$514,800

Plan: Huntington

4 Bedrooms

3.0 Bathrooms

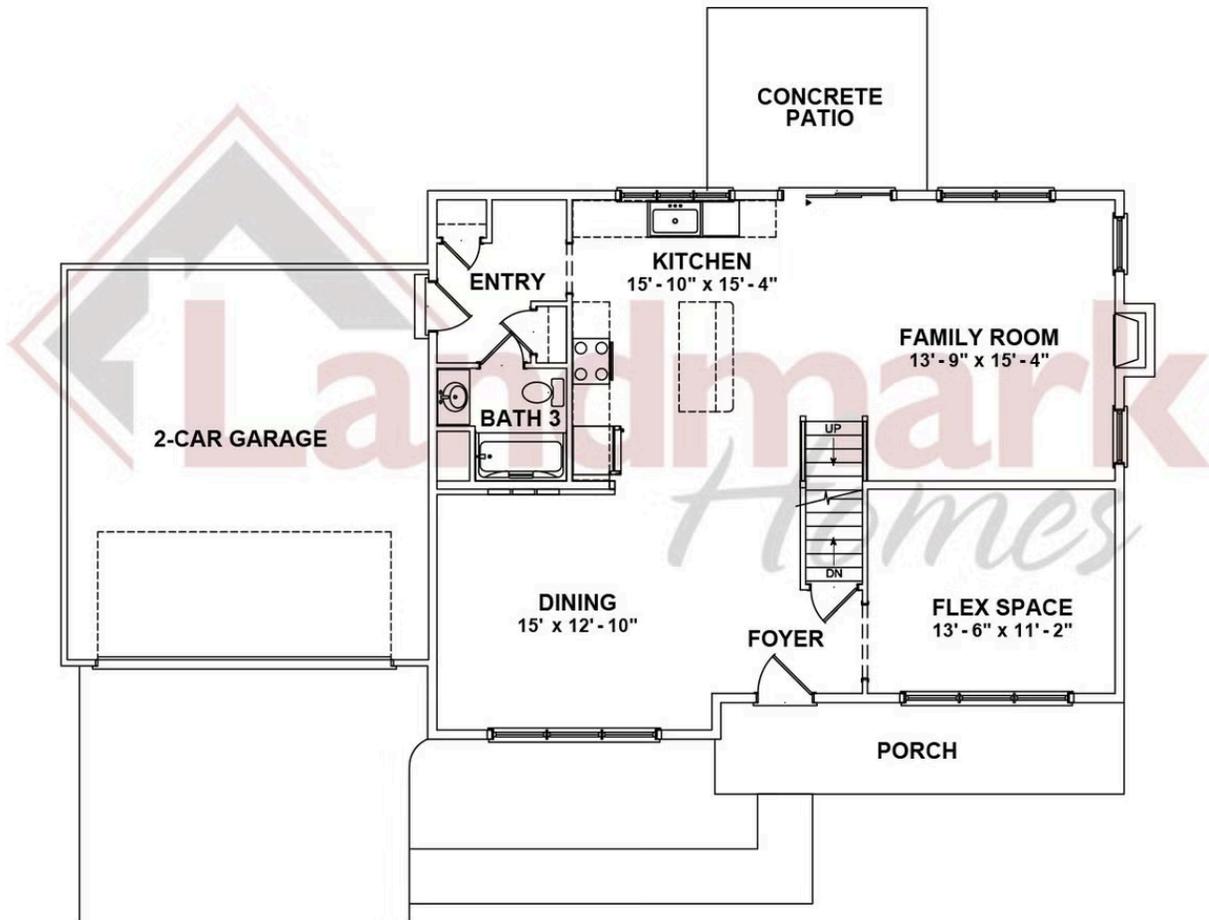

2,421 Sq. Ft.

Welcome to this beautifully crafted home with timeless design and modern comfort. An inviting front porch sets the tone for the warmth & charm inside where you'll find natural sunlight brightening throughout. 9' ceilings add to this open, airy feel. The heart of the home boasts a cozy stone fireplace, open dining area, and a fully functional kitchen with stainless steel appliances, quartz countertops, stylish tile backsplash, large island and triple window above the sink. A versatile flex room offers endless possibilities- home office, playroom, or guest room since a full bath is also conveniently located on the first floor. Upstairs, the owner's suite provides its own private bath with a wide double vanity and expansive walk-in closet. Just down the hall are 3 additional generous sized bedrooms, a full bath, and conveniently located laundry room. If entertaining outside, yard games, or even installing a pool were in your plans? You're in luck! This 1/3 acre homesite has the perfect leveled yard for doing so!
