This well-designed three-story townhome offers a comfortable and efficient layout with spacious gathering areas, private bedrooms, ample storage, and convenient indoor-outdoor living across three levels.

The entry level features a welcoming front porch and foyer, leading to a spacious one-car garage and a large unfinished storage/mechanical area. The additional unfinished space provides plenty of room for seasonal items, household storage, or future customization.

The main living level offers an open kitchen, dining, and living area designed for both everyday living and entertainment. The kitchen features a generous center island, creating additional preparation space as well as a natural gathering point. The dining area flows into the spacious living room, while a conveniently located powder room serves this level. At the rear of the home, a deck provides an extension of the living space outdoors—perfect for relaxing, dining, or entertaining.

The upper level provides a private retreat with three bedrooms and two full bathrooms. The spacious owner's bedroom features a private owner's bathroom and a generous closet. Two additional bedrooms offer flexibility for family members, guests, a home office, or other needs.

Overall, this middle-unit townhome combines three comfortable levels of living with a one-car garage, substantial storage, an open-concept main floor, three bedrooms, 2½ bathrooms, and a private rear deck. The thoughtfully arranged floor plan makes excellent use of space and functionality.
